

Comprehensive, high-quality infusion services delivered with unsurpassed comfort and convenience.

At RCCA's Central Jersey Division, we provide outstanding, leading-edge cancer care. But it isn't all we do.

At our Central Jersey offices in East Brunswick, Edison, Monroe, Somerset and Somerville, we provide the full range of advanced infusion services for patients. These include (but aren't limited to) infusion treatment for rheumatoid arthritis, osteoporosis, asthma, inflammatory bowel disease and multiple sclerosis.

At RCCA, we offer treatment in a pleasant outpatient setting that's designed to maximize patients' comfort...without the inconvenience associated with hospital-based infusion. In fact, we provide a very different, and much more pleasant, infusion experience. Scheduling and registration are easy, parking is convenient, our environment is welcoming, waits are short, and patient care is individualized.

"...it's a testament to the hospitality and heart of the nurses. I truly feel they care."

"The energy here is very positive and makes patients feel good about themselves."

INFUSION SERVICES AT RCCA'S CENTRAL JERSEY DIVISION

A Better Experience

“From the moment I walk through the door, I feel that I am being treated like a human being, and not just a case or a diagnosis.”

“My treatment and the staff have been excellent.”

Experienced, respected physicians partnering with patients to ensure seamless care.

Our team of 23 board-certified physicians, many of whom consistently earn regional Top Doctor recognition – has been treating oncology and hematology patients for more than 30 years. In addition to developing broad expertise with infusion therapy, we have developed a robust program of collaboration and coordination to ensure patients get the very best care possible.

Patients deserve greater accessibility, comfort and convenience.

Patients will be treated in the comfort and convenience of one of our Central Jersey infusion locations, normally between 8:00am and 3:00pm Monday thru Friday. We make every effort to accommodate patients' requests regarding scheduling of their infusions and offer easy parking. While being treated, patients sit in a comfortable chair in a welcoming setting and are welcome to bring a friend or family member along to keep them company.

“It's a dramatically different scene from my experience in the hospital.”

By the patient's side and designed to ensure accuracy and appropriate treatment.

At RCCA's Central Jersey Division, a successful infusion starts with a referral. The referring physician will provide us with all the information required to ensure a safe and accurate infusion. Our clinical scheduler will then contact the patient to schedule the infusion appointment.

Before treatment begins, an RCCA Nurse Practitioner or Physician Assistant will educate patients about what to expect and what to do to get the most benefit out of treatment. Our Registered Pharmacist will review all treatment plans to ensure accurate, up-to-date therapies and optimal delivery of medications. The infusion will be administered by our experienced, caring Registered Nurses – Nurses who will be right there in the infusion room to oversee treatment and respond to the patient's needs. Once the course of treatment is complete, we will send a follow-up notice confirming treatment to the referring physician.

For more information, or to schedule an appointment for experienced, convenient infusion therapy, call us today.
