

IS CANCER DUE TO BAD GENES? OR JUST BAD LUCK?

What to think and do when there's cancer in your family

Many people have loved ones with cancer. But what caused these cancers? Is it an exposure we can escape? Or our inherited genes, which we can't escape? Learn how to recognize the difference and use that information for cancer prevention.

Wednesday, April 6, 2016 – 7:00pm to 8:30pm

East Brunswick Public Library, Mtg Rooms 2 & 3
2 Jean Walling Civic Center • East Brunswick
