

WHAT'S NEW IN LUNG CANCER.

Learn about the latest breakthroughs.

DR. BRUNO FANG

Dr. Fang will discuss the following topics, among others:

- Incredible breakthroughs in lung cancer treatment over the past decade, including immunotherapy and other targeted therapies
- Lung cancer risk — even in nonsmokers — and how family members can stay healthy despite elevated risk
- Prevention and screening protocols, including low-dose CT scans that can reduce the risk of death in high risk populations

WHAT'S NEW IN LUNG CANCER*

Presented by:

Dr. Bruno Fang, Medical Oncologist

Tuesday, March 28th, 2017 • 7:00 – 8:30 pm
