

**TUESDAY
JUNE 15, 2021
@ 12-1 PM**

Learn more in depth from cancer specialists
in this new addition to Astera Cancer Classes:

ALL YOU NEED TO KNOW ABOUT LUNG CANCER

A better understanding of cancer-related conditions and how they can be managed is possible. Taught by Astera Cancer Care specialists and other local medical experts, our online presentations address some of the most pertinent areas in cancer treatments and advancements.

Discussion topics include:

- Lung cancer screening and prevention
- Different types of lung cancer
- Advancements in the treatment of lung cancer:
 - The role of surgery and radiation
 - Immunotherapy & targeted treatments

If you or a loved one is affected by cancer in anyway, we welcome and encourage your attendance. To register for this online event, go to rebrand.ly/amjad-dobrescu and have your smartphone, tablet, or computer handy as well as reliable internet access. Once registered, we'll send you a link with additional instructions. We look forward to your attendance!

Presented by:

Maqsood Amjad, MD

Board Certified Medical
Oncologist and Hematologist
