

RCCA's Central Jersey Division provides outstanding cancer care, but that's not all we do. From our Central Jersey offices in East Brunswick, Edison, Monroe, Somerset, and Somerville we administer a full range of infusion services for patients with issues such as rheumatoid arthritis, osteoporosis, asthma, inflammatory bowel disease and MS. Patients are treated in a pleasant outpatient setting, designed to maximize comfort and minimize the inconvenience associated with a hospital.

At RCCA, we offer amenities that can make a big difference in patient experience: a welcoming environment, convenient parking, easy registration and scheduling, short wait times, individualized patient care, and help with insurance processing.

*"...it's a testament to the hospitality and heart of the nurses. I truly feel they care."*

*"The energy here is very positive and makes patients feel good about themselves."*

# INFUSION SERVICES AT RCCA CENTRAL JERSEY DIVISION

*A Better Experience*

*“My treatment and the staff have been excellent.”*

*“From the moment I walk through the door, I feel that I am being treated like a human being, and not just a case or a diagnosis.”*

#### *Partnering with referring physicians.*

RCCA works closely with the referring doctor to ensure seamless coordination of care. Our staff of 23 board-certified physicians, many of whom are consistently named Top Doctors in the region, have been treating oncology and hematology patients for more than 30 years. They are assisted by nurse practitioners, physician assistants and a staff of oncology-certified registered nurses, who are trained to administer a wide range of treatments, including infusion services. We have a registered pharmacist who reviews all treatment plans, ensuring accurate and up-to-date therapies as well as optimal use of medications.

*“It’s a dramatically different scene from my experience in the hospital.”*

#### *Compassionate, results-focused care and support for...*

- Breast cancer • Lung cancer • Colon cancer
- Prostate cancer • Myeloma • Lymphoma
- Leukemia • Melanoma • Pancreatic cancer
- Esophageal cancer • Stomach cancer
- Ovarian cancer • Head & neck cancer
- Liver cancer • Brain tumors • Blood disorders
