Comprehensive, advanced care for every stage of life

When you need a doctor who just “gets” you, you can depend on the skilled specialists at Women’s Wellness Center. Our all-female doctors and clinical staff offer a whole-woman approach to care in a safe, supportive, family-focused environment that’s close to home. We walk beside you throughout your entire wellness journey to ensure you understand your treatment options and have what you need to make informed decisions about your own health.

Providing high-quality care and leading-edge technologies

- State-of-the-art, minimally invasive gynecologic surgery
- Board-certified doctors specially trained in high-risk pregnancy
- Dedicated to staying current on all leading-edge techniques
- First OB/GYN practice in South Dakota to offer a prenatal CenteringPregnancy program
- In-house intrauterine insemination (IUI)
- In-house ultrasound & non-stress testing
- In-house colposcopy, endometrial biopsy, pessaries & incontinence therapies

Specialized therapy you won’t find anywhere else in Huron and surrounding communities

Our services extend beyond standard OB/GYN practice. Dr. Castellanos provides in-house osteopathic manipulative treatment (OMT) to help ease pain, promote self-healing and increase overall mobility. OMT is a safe, effective, nonsurgical option that can often complement, and sometimes replace, medication or surgery.

Live a long and healthy life with compassionate well-woman and gynecologic care

“I am a wife and mother, so I completely understand the physical and emotional challenges women face every day. It is my life’s work to help women maintain their own health and awareness through empowerment and education. I’m most passionate about getting to know the person — not just the medical history. I believe in looking at, and understanding, the whole person before making a diagnosis or recommending treatment.”

Your partner through every phase of family planning, pregnancy and delivery

Deciding to start a family can be one of the most exhilarating experiences of your life, but it can also cause unexpected frustration, worry and anxiety if things don't go exactly as planned. Our board-certified doctors provide full pregnancy care, from conception through delivery and beyond. We're excited to support you each step of the way on your journey to motherhood. Our all-female doctors and clinical staff are sensitive to your needs and will help create a personalized healthcare and birth plan that best fits your individual preferences.

The skilled, specialized care you depend on for a high-risk pregnancy

In addition to our general obstetrical services, we also provide care for high-risk pregnancies right here in Huron. This includes women with pre-existing medical conditions and multiple pregnancies. We specialize in caring for women with an increased risk of complications from gestational diabetes, high blood pressure, thyroid disorders, heart disease, cancer and more.

Innovative prenatal care that enhances support and learning

We want you to have the best experience possible close to home — an experience full of compassion and caring in a family-friendly environment. We are proud to be the only practice in Huron offering the innovative **CenteringPregnancy*** program. We bring together women (due at about the same time) out of exam rooms and into a comfortable group setting that is a safe, welcoming space for learning and development. Throughout the program, we focus on nutritional education, breast-feeding information and tips for after the baby arrives. Sometimes, just knowing you're not alone can make all the difference.

**CenteringPregnancy is a prenatal care option offered to expectant mothers in addition to traditional prenatal care.*

Feel safe and comfortable that you're in good hands with women dedicated to women

At Women's Wellness Center, we are dedicated to your needs and to making sure that your experience with us is the best it can be. As women, we are with you, among you and for you.

"For me, OB/GYN has always been more of a calling than a career. I'm fascinated by pregnancy and the process of creating another human life. And the female body has always amazed me. Now, I'm so glad that I get to care for women throughout all stages of their lives. I honestly don't feel like I chose this career. I feel like it chose me at a very young age for reasons that are bigger than me and beyond my understanding."
